

Aurora Mental Health Center and Genoa are very excited to announce the opening of a full-service, on-site pharmacy.

This is Genoa's 327th pharmacy nationwide and their eighth pharmacy in the state of Colorado, and now the company is part of the AuMHC family. The pharmacy, opened in September, had its ribbon cutting ceremony event last week.

With the new on-site pharmacy located within Aurora Mental Health Center, our clients will have more benefits by getting both their therapy and medication at one convenient location.

Please stop by to say hello or give Genoa a call to learn more about their services!
